### General information

I have 3 years' experience in Frontend development using JavaScript and Angular. I have thorough understanding of whole app development process, from requirements review to submission to production. I tend to apply the latest development standards into development process. I make it my goal to create a useable and intuitive user interface experience. My technology stack covers JavaScript, Angular, AngularJS, React, HTML, CSS, Sass, Less, NodeJS, ExpressJS, AWS, Serverless, MongoDB, jQuery, Responsive UI, Git and Photoshop. I am a citizen of the Republic of Belarus, but I am currently in Warsaw on a D work visa.

Web part of quick sharing files.

#### Main responsibilities:

- Frontend development
- Including new features

#### Tools and Technologies:

Angular8, HTML, SASS

### Fizy

Web part development of music service.

#### Main responsibilities:

- Frontend development
- Including new features
- Bug fixing
- Redesign components

#### Tools and Technologies:

Angular JS, Angular7, HTML, SASS

## **Lifebox**

Web part development of cloud service.

### **Main responsibilities:**

- Frontend development
- Including new features
- Bug fixing
- Style templates system

### **Tools and Technologies:**

Angular JS, Angular7, React HTML, SASS, NodeJS, Express, Webpack

## **Billo**

Web part development of cloud service.

### **Main responsibilities:**

- Frontend development
- Including new features
- Style templates system

### **Tools and Technologies:**

Angular JS, Angular7, React HTML, SASS, NodeJS, Express, Webpack

**AUG 2018 - FEB 2019**  
*Frontend Developer*

### **iKassa**

Sales management web application.

#### **Main responsibilities:**

- Frontend development
- Including new features
- Style templates system

#### **Tools and Technologies:**

Angular7, HTML, SASS, NodeJS, Express

### **Plugin**

Plugin for web application.

#### **Main responsibilities:**

- Frontend development
- Including new features
- Style templates system

#### **Tools and Technologies:**

Angular7, HTML, SASS, NodeJS, Express

### **Adapsys**

Hotel web application.

#### **Main responsibilities:**

- Frontend development
- Including new features
- Style templates system
- Bug fixing

#### **Tools and Technologies:**

Angular4, HTML, SASS
